INVESTMENT UNIVERSE AND INVESTMENT OBJECTIVE

The investment objective of the sub-fund is to generate long-term capital growth while maintaining appropriate risk diversification through the investment of at least two-thirds of sub-fund assets in equities and other equity securities of German companies. Focus is placed on undervalued companies with pronounced medium-term earnings growth and strong management, yielding favourable results against the index in all market phases. The fund managers seek out long-term investment horizons in order to benefit from revaluation processes. This can include both companies with large market capitalisation and small or mid-cap companies. The fund is generally fully invested, with a cash ratio below 10%.
