INVESTMENT UNIVERSE AND INVESTMENT OBJECTIVE

The investment objective of the sub-fund is to generate long-term capital growth and high returns. The sub-fund invests primarily in hard currency bonds (including zero-coupon bonds), short-term debt securities and similar debt instruments, using a balanced investment strategy designed to maintain a rating of at least BB for the sub-fund as a whole. These financial instruments are issued or guaranteed primarily by corporate borrowers domiciled in emerging markets or by sovereign borrowers in emerging economies: particularly central banks and government authorities. Our investment managers employ a high-conviction, active investment strategy supported by a reliable risk management framework.
